

The Child Sexual Abuse and Psychology Interest Group

The Group's Terms of Reference

1. *To provide a forum for the sharing of psychological knowledge, skills and information about the causes, treatment and prevention of child sexual abuse, and research on related issues;*
2. *To provide a forum for discussion, peer contact, support and information sharing for psychologists interested in psychological issues around child sexual abuse;*
3. *To establish and contribute to partnerships, networks and coalitions that facilitate a cooperative and educational approach to enhancing psychological understanding about the causes, treatment and effects of child sexual abuse with a view to reducing its future incidence and harm to the community;*
4. *To facilitate and promote national research and community education, and training opportunities for psychologists and other relevant professionals into the causes, treatment and prevention of child sexual abuse;*
5. *To contribute to community education by the sharing and release of psychological information with the public and media with a view to:*
 - a. *promote evidence-based psychological treatment, prevention and research in the community; and*
 - b. *improve the support available to all persons involved in child sexual abuse.*
